CREATE CHANGE

Bachelor of Commerce

Equip yourself with an in-depth understanding of accounting, banking, finance, information systems and business analytics.

Why study commerce?

Your ability to apply and adapt fundamental commerce principles to address challenges facing businesses and the global economy will be sought after by employers in the public and private sectors.

Prepare for a thriving career in:

 Accounting

 Business analysis

 Business information systems

 Data science

 Banking and finance

 General management

What you'll study

Majors

Tailor your studies to suit your goals with 1 of 4 majors, plus a second major or selection of general electives, to broaden your knowledge and skillset. Choose from:

- Accounting
- Business analytics
- Business information systems
- Finance.

Honours

Complete your studies in 3 years (full-time) or open more career pathways by gaining specialist knowledge and high-level research skills when you add a one-year honours program.

Dual programs

Double your skills and opportunities by combining commerce with a second degree. Choose from 9 dual degree options, from economics and information technology to law and engineering.

Practical industry experience

Benefit from hands-on learning experiences and work placement opportunities, as well as support from a dedicated careers and employability team to help you navigate your options.

Career opportunities

Depending on which major you choose, you could be on your way to a diverse range of careers, such as auditor, data analyst, corporate treasurer, banking analyst, chartered accountant and more.

Professional memberships

As a graduate, you may be eligible for memberships with a diverse range of professional bodies, including Association of Certified Chartered Accountants, Financial Services Institute of Australia and the Chartered Financial Analyst (CFA) Institute.

What graduates say

"BEL Careers and Employability events and external partnerships give students a leap in gaining industry experience. My team and I were privileged to work closely with the Queensland Ballet to grow and analyse their ambassador program using analysis techniques on real data. I learned how economic analysis of certain industries is incorporated into the decision-making process."

Now I've graduated, I'm working as an analyst for a leading provider of mergers and acquisitions, capital markets, finance transactions and strategic advice to Australian and international clients."

Fergus O'Donnell

Bachelor of Commerce /
Bachelor of Economics
