

# Bachelor of Advanced Finance and Economics (Honours)

THE UNIVERSITY  
OF QUEENSLAND  
AUSTRALIA

CREATE CHANGE

Gain the practical, analytical and technical skills to become a leading economist or financial markets professional in investment banking, sales and trading, capital markets, funds management, or economic or management consulting.

## Why study advanced finance and economics at UQ?

This is the only program of its kind available in Australia. Over 4 years, develop the analytical rigour and technical knowledge to be a leader in the fields of finance and economics through courses exclusive to your tight-knit cohort. You'll graduate with specialist skills highly sought after by employers and a degree that is well respected by industry.

## Prepare for a thriving career in:

Investment banking

Management consulting

Economic consulting  
and analysis

Funds management  
and equity research

*"You'll learn from world-class academic staff to solve challenging real-world problems. I have been provided numerous opportunities to establish strong links with leading industry employers and have created lifelong connections with peers."*

Employability University Ranking 2025

## What you'll study

### Program structure

Complete a range of courses across economics and finance before choosing a major in your final year. You can choose to specialise in economics or finance, or you can complete a general pathway.

- If you complete a major, you'll complete a research thesis in that topic as well as your choice of other courses in the topic, with the option of completing a business industry placement.
- By taking the general pathway, you'll complete a team project with one of our industry partners, an applied research project and a diverse range of elective courses.

### Practical industry experience

Work on real cases and projects with industry partner firms and learn from leading industry professionals.

### Career opportunities

Our students have obtained a disproportionate share of in-demand graduate roles in investment and institutional banking, markets and trading, management and economic consulting and funds management.

### Professional memberships

As a graduate, you may be eligible for memberships with a diverse range of professional bodies.

### Alternative entry pathways

If you don't meet the entry requirements for this program when you first apply, you may be able to gain entry after successfully completing 1 year of full-time study in the:

- Bachelor of Advanced Business (Honours)
- Bachelor of Commerce
- Bachelor of Economics.

You may also receive credit towards the Bachelor of Advanced Finance and Economics (Honours) from shared courses or general electives with your first program of choice.

If you don't meet the prerequisite mathematical skills required to study this program, you can complete a bridging course via UQ College prior to the main QTAC offer round in mid-January. This can be studied in person over 4 weeks or online at your own pace over 12 months.
