

# Graduate Certificate in Clinical Informatics and Digital Health

Be part of the digital transformation of the healthcare industry with a Graduate Certificate in Clinical Informatics and Digital Health. Developed in partnership with Queensland Health and the Digital Health CRC with national and state digital health priorities in mind, this program will build your capability to embrace change and revolutionise digital healthcare services.

The program is suitable for:

- Clinicians who understand the importance of applying the latest clinical knowledge to better serve patients.
- IT staff, IT consultants, and other informaticians who work in health services (or who wish to do so).
- Clinical, technical, or business staff within health services who wish to move up the executive leadership ranks.

**Duration:** 2 years part-time (only available as part-time study)

**Commencing Semester:** Semester 1 (14 Mar, 2022)

**Program code:** 5729
